

SUMMARY

Final-year B.Tech (AI & ML) student with hands-on Python and GenAI project experience, combined with 4+ years of professional video editing and graphic design work. Skilled at turning ideas into real-world AI solutions and eager to contribute to AI and Software Development projects.

EDUCATION

Raj Kumar Goel Institute of Technology, AKTU <i>B.Tech in Artificial Intelligence & Machine Learning</i>	Ghaziabad, India <i>2023 – 2027</i>
--	--

SKILLS

Programming Languages: Python, C, HTML, CSS
AI/GenAI: ChatGPT, Google Gemini, Prompt Engineering, AI-driven Automation
Developer Tools: GitHub, VS Code, npm, Vercel, Figma
Design: Graphic Design, Video Editing (4+ Years)
Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

PROJECTS

AI Interview Bot <i>Python, GenAI</i> • Simulation: Built an AI-based interview bot simulating technical and HR interviews. • Workflow: Designed conversational workflow and response evaluation logic.
Vingo AI <i>Python, Streamlit, Live Audio Translation</i> • Real-Time Translation: Developed an AI-powered application that translates live spoken audio from one language to another in real time. • Multilingual Integration: Integrated speech recognition, language translation and text-to-speech for multilingual conversations. • Interface Optimization: Built a responsive interface focused on low-latency live communication.
Line Following Robot <i>Embedded Systems, Sensors</i> • Decision Logic: Designed sensor-based decision logic for real-time path detection and motor control.

EXPERIENCE

Software Project Contributor <i>Software Developer</i> • Client Deliverables: Gathered client requirements and converted them into functional deliverables. • Collaboration: Collaborated remotely through iterative feedback cycles.	Remote <i>2024</i>
Freelance Video Editor & Graphic Designer <i>Creative Professional</i> • Creative Solutions: Delivered creative solutions for multiple clients. • Management: Managed client communication, revisions and deadlines.	Remote <i>2021 – Present</i>

ACHIEVEMENTS

SPIC Society <i>College Society</i> • Served as Design Lead managing creative direction and design tasks.	Design Lead <i>2024</i>
College Hackathons <i>RKGIT</i> • Won multiple college-level hackathons by building innovative technical applications.	Winner <i>2024 – 2025</i>
Hack the Prompt Hackathon <i>Hackathon</i> • Received a Certificate of Participation for building prompt engineering solutions.	Participant <i>2024</i>
