

SUMMARY

B.Tech student in Artificial Intelligence & Machine Learning with hands-on experience in Python, Machine Learning, NLP, and GenAI application development. Learning Data Structures & Algorithms, with consistent practice on LeetCode and GeeksforGeeks. Brings 4+ years of freelance experience as a video editor and graphic designer alongside technical development skills.

EDUCATION

Raj Kumar Goel Institute of Technology, AKTU

B.Tech in Artificial Intelligence & Machine Learning

Ghaziabad, India

2023 – 2027

SKILLS

Programming Languages: Python, HTML, CSS

Frontend Development: Responsive Web Design, Figma, Vercel

AI / Machine Learning / GenAI: Machine Learning Fundamentals, NLP, Prompt Engineering, ChatGPT, Google Gemini, AI-driven Automation, Streamlit

Developer Tools: Git, GitHub, VS Code, npm, Vercel, Figma

Core CS: Data Structures & Algorithms (active practice on LeetCode & GeeksforGeeks)

Design: Graphic Design, Video Editing (4+ Years)

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability

PROJECTS

Vingo AI
Python, Streamlit, Speech Recognition, Live Audio Translation

- Real-Time Translation:** Developed a real-time AI application that translates live spoken audio between languages with under 2-second end-to-end latency.
- Multilingual Integration:** Integrated speech recognition, machine translation, and text-to-speech into a single multilingual pipeline supporting 5+ languages.
- Interface Optimization:** Built a responsive Streamlit interface optimized for low-latency uninterrupted communication.

AI Interview Bot
Python, GenAI, Prompt Engineering

- Simulation:** Built a conversational AI interview bot simulating technical and HR interview rounds.
- Workflow:** Designed a multi-turn conversational workflow with response evaluation.
- Testing:** Tested across 50+ simulated interview sessions.

Line Following Robot
Embedded Systems, Sensor Programming

- Decision Logic:** Designed sensor-based decision logic with under 100ms response time.
- Calibration:** Calibrated IR sensor thresholds for reliable tracking.
- Control Logic:** Implemented PID-based motor control.

EXPERIENCE

Software Developer (Project Contributor)

Freelance / Contract

Remote

2024

- Client Deliverables:** Gathered requirements from clients and delivered functional software features on a weekly release cycle.
- Collaboration:** Collaborated remotely with the team through weekly release cycles and iterative feedback.

Freelance Video Editor & Graphic Designer

Creative Professional

Remote

2021 – Present

- Creative Solutions:** Delivered creative video and design solutions for 20+ clients across social media, promotional, and branding content.
- Client Management:** Managed communication, revisions, and deadlines for 20+ clients, maintaining a high repeat-client rate.

ACHIEVEMENTS

SPIC Society

College Society

Design Lead

2024

- Served as Design Lead managing creative direction and design tasks for society events and campaigns.

College Hackathons & Hack the Prompt

RKGIT

Participant

2024 – 2025

- Built a prompt engineering solution at Hack the Prompt.
